Subject: Endorsement and Adoption of Child Rights Guidebook

Dear Ayaan,

At Sentinel Securities, our core values have always revolved around integrity, safety, and social awareness. Your guide, *"Ensuring Child Rights: A Guide for Socio-Behavioural Practices for Private Security Employees,"* brings a thoughtful and much-needed lens to an area often overlooked in our industry.

What really stood out to our leadership was how well you tailored the guide to our specific operational context. From vendor networks to on-ground staff protocols, your recommendations are not only well-researched but also highly relevant and applicable to the private security sector. The real-world lens you applied—especially around ethical hiring, child protection awareness, and sensitization of ground-level teams—offers a clear path for standardizing these critical considerations at an operational level.

We are pleased to inform you that, following a comprehensive internal review, Sentinel Securities has decided to adopt your framework into its internal corporate policies and training programs. This initiative for creating awareness will be rolled out starting this year across all our operating regions. We're also exploring ways to integrate your framework into our CSR outreach modules, particularly those focusing on safe childhood and educational access.

Thank you for your initiative and commitment to such an important cause. It's been a pleasure to engage with your work, and we look forward to collaborating further on making the private sector more child-conscious and responsible, thereby reinforcing our commitment to ethical conduct and social responsibility.

Best regards,

For **Sentinels Security Pvt. Ltd.**
